

Fly Swatter - Set of 2

Classic tool

Fly swatters are easy to use. Hitting a fly with them requires only little practice. The Gardigo Fly Swatter is now available in a handy set of 2. Why not have a swatter at hand in every room of the house?

To prevent insects from getting crushed by the swatter, its head is made from a flexible plastic. Flies will get killed by the impact and acceleration. Splatting them is not necessary. With reasonable use of force, many stains can be avoided.

Also available individually or as a set of 10 (Art.No. 25161/2516110).
