Fly Swatter

Classic tool

The Gardigo Fly Swatter is the classic insect control tool. Every child knows how to use it and hitting a fly with it requires little practice. You are in control and decide whether an insect is a rare or beneficial species that should be saved or a pest that should be swatted.

The swatter head of this product is made from a flexible plastic, to avoid that the insects get crushed. Ideally they are killed by

the impact, not by the deformation. When used correctly, unsightly stains on the wall can be avoided.

Also available as a set of 2 (Art. No. 251612) or as a set of 10 (Art. No. 2516110).

Additional information

- **Dimensions:** 9.9 x 44 x 0.3 cm (W x H x D)
- **Packaging dimensions:** 9.9 x 44 x 0.3 cm (W x H x D)
- **Product images, scenery images**
- **Packaging unit:** 1000 units per package
