Wasp-Repellent Coffee

Repel wasps with coffee smoke

The smoke generated in the fireproof clay bowl spreads a smoky coffee aroma through the holes in the lid. Wasps will avoid the smoke, which they find most unpleasant. The smoke generated in the fireproof clay bowl spreads a smoky coffee aroma through the holes in the lid. Wasps will avoid the smoke, which they find most unpleasant.

Application:

1. Place the product on a heat-resistant surface or hang it on a hook using the wire hanger supplied
2. Remove the lid of the product.
3. Pour 10 g of ordinary, dry coffee powder (not included) into the bowl.
4. Ignite the powder. Hold a flame on it until it starts to glow. Depending on the wind, the coffee may need to be reignited from time to time.
5. Close the lid. The smoke can escape through the holes and drive away wasps.
6. Wait until the embers have gone out completely or use water to extinguish them if you need to leave the product unattended.
7. Remove the cooled ash from the product.
