

Art.-No. 25304

Magnetic Insect Screen for windows

For windows up to 130 x 150 cm

The Gardigo Magnetic Insect Screen for windows is easily fixed to the window frame with the included sticky magnetic tape. The screen's frame size can be customized to match the dimensions of your windows. A mounting roller is included to make inserting the magnetic tape's counterpart into the screen frame easy.

During the insect free time of year, the screen can be removed from the window with hardly any effort. The finger loops of the corner pieces are a great help for this. The high-quality fibreglass fabric's dark colour allows for great vision from the inside out.

It is rugged and washable at 30 °C. Don't let pesky flies and mosquitoes get into your living and bedrooms in the first place.

Also available in following sizes:

For windows up to 100 x 100 cm (Art.-No. 25300)

For windows up to 100 x 120 cm (Art.-No. 25302)
