

Art.-No. 25305

Magnetic Insect Screen for windows

For windows up to 130 x 150 cm

With the Gardigo Magnetic Insect Screen installed, pesky insects will not be able to come into your house. This is an insect friendly way to protect yourself from flying pests. The screen's frame is fixed to the window with a sticky magnetic tape. No drilling required!

The high quality fibreglass fabric is rugged, reusable and can be washed at 30 °C. Its dark colour makes it as good as invisible when looking out of the window from the inside.

During the insect free season, the Magnetic Insect Screen can be taken off with hardly any effort. The loops of the corner pieces are a great help for this.

Also available in following sizes:

For windows up to 100 x 100 cm (Art.-No. 25301)

For windows up to 100 x 120 cm (Art.-No. 25303)
