Animal Scram Barrier, Set of 6

With removable scented bowls

Treading and sniffing is uncomfortable now! The Gardigo Animal Scram Barrier is a versatile deterrent thanks to its unique scented bowls: Not only are the soft plastic spikes uncomfortable to walk on (but harmless for the animals), you may also fill the bowls with scented granules or home remedies that spread a scent that is unpleasant for them. Cat and dog noses are very sensitive and perceive smells a lot more intense than we do. This allows you to use this product successfully even if the animals are unimpressed by the spikes.

The bowls are simply stuck onto the spikes and can be taken off for cleaning or a refill. To prevent the animals from simply stepping into the bowls, they have spikes as well. The bowls have drain holes, so they will not fill up with rain water.

Spike mats can be used under a car's motor compartment in case of marten problems, as a digging protection for dogs or as a barrier when rabbits and slugs are ravaging in your garden patch.

The panels are assembled with two connectors on each side of the product. They can be arranged in different ways, e.g. length-wise around a vegetable patch or like a carpet.

Also available as a set of 12 (Art.-No. 6004112).
