

Art.-No. 60085

Solar Water Animal Repellent

Startles animals gently with a jet of water

Problems with unwelcome animals in the garden can be of various nature: rabbits feed on vegetables, cats soil the lawn, herons hunt for fish in the pond and dogs are digging unsightly holes.

By using the Gardigo Solar Water Animal Repellent you can set them boundaries without doing them any harm. A jet of water that reaches up to 10 m will startle the uninvited visitors. The angle as well as the reach of the sprinkler can be adjusted. This allows for using the device in a controlled manner, e.g. if the animals only need to keep out of a certain part of the garden.

The included batteries are charged by the solar panel. The device is set by sticking its earth stake into the lawn or a large flower pot. Only a water supply is required. The device's connector is compatible with customary garden hose systems.

Additional information

- **Dimensions:** 11 x 66 x 20 cm (W x H x D)
- **Packaging dimensions:** 22.9 x 12 x 11.7 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
- **Product video, product images, scenery images**
- **Packaging unit:** 10 units per package

Specifications

- **Adjustable spray coverage**
- **Solar Panel**
- **Range of water jet:** up to 10 m (adjustable & dependent on water pressure)
- **Activation by PIR motion detector:** Detection angle approx. 100° x 60°
- **Sensitivity control for motion sensor**
- **Adjustable sprinkler:** Left/Right and Up/Down
- **Water consumption per activation:** approx. 2 – 3 cups
- **Simple standard connection to common garden hose systems**
- **Protection class:** IPX6
- **2 x AA NiMH rechargeable batteries, 1200 mAh (included)**
- **Easy to install with ground spike**
