

Art.-No. 60087

Bird Repellent Kite

Predator dummy

Are you having problems with birds feeding on fruit trees, seedling material or with herons pillaging in fish ponds?

Our Bird Repellent Kite looks like a bird of prey, flying high up in the air. Smaller birds are scared of predators and try to keep their distance. The perpetual motion of the kite makes this mock up look particularly realistic.

The 9 m telescopic rod allows the kite to cover a large area. Perfect for large properties or the use in agriculture.

We recommend relocating the kite once a week to prevent the habituation effect.

Additional information

- **Dimensions:** 128 x 52 cm (W x H)
- **Telescopic rod:** approx. 9 m
- **Packaging dimensions:** 115 x 12 x 5 cm (W x D x H)
- **Ground anchor**
- **2.5 m flying line**
- **Product video, product images, scenery images**
- **Packaging unit:** 8 units per package

Gardigo Vogel-Abwehr-Drachen
