Anti Collision Bird Stickers

Protect your windows from bird strikes

Are birds having troubles recognising surfaces such as your windows, glass doors or your conservatory as obstacles? Do they frequently collide with them or hit them? Use our self-adhesive decals to improve visibility of glass panes for our feathered friends. Save their lives and protect your windows from bird strikes!

Application:

Before applying the stickers, we recommend cleaning the pane thoroughly using soapy water. With dirt, grease and dust absent the stickers will adhere better. Peel off the backing paper and

make sure to not let any parts of the adhesive surface touch one another. Use a soft cloth to smooth the sticker onto the window. By applying gentle pressure, tiny air bubbles underneath the bird protection sticker can be removed.

Additional information

- **Packaging dimensions:** 22.5 x 30.9 x 0.1 cm (W x H x D)
- **Sticker dimensions:** 11 x 11 cm – 12.5 x 20 cm (W x H)
- **Manuals included:** DE, GB, FR, ES, IT, NL, CZ
- **Product images, scenery images**
- **Packaging unit:** 250 units per package
