

Art.-No. 60101

Bird Deterrent Heron

For ponds

With this life sized dummy heron in your garden pond, real herons will think twice if they want to get into trouble with the alleged competitor. The birds usually hunt on their own and defend their territory vigorously. For this reason, herons try to keep their distance from members of the same species. Use the animals' natural behaviour to protect the fish in your pond!

The Bird Deterrent Heron is simply placed by the pond. The included earth spike assures a firm stand.

Additional information

- **Dimensions:** approx. 15.5 x 100 x 58 cm (W x H x D)
- **Packaging dimensions:** approx. 15.5 x 68.5 x 21.5 cm (W x H x D)
- **Earth spike included:** approx. 49.5 cm
- **Product description:** DE, FR
- **Product images, scenery images**
- **Packaging unit:** 12 units per package
