

Art.-No. 60102

Bird Deterrent Owl

Scaring animals

With its large, shiny eyes, the movable head which rotates in the wind and its realistic size, this dummy owl is as frightening to other animals as a real bird of prey.

Pigeons, sparrows and a great variety of small mammals will try to keep their distance from the predator.

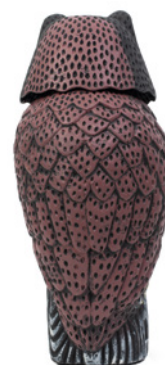

The owl's base can simply be filled with sand or stones for a firm stand. The dummy is not only useful as a bird deterrent, but also very decorative. A perfect eye catcher on the balcony, terrace, patio or in the garden.
