

Art.-No. 60103

Bird Deterrent Falcon

For patios and balconies

Pigeons and many song birds fear the falcon as a predator and keep their distance. You can use this natural behaviour to your advantage by using our Bird Deterrent Falcon where bird droppings are a problem, e.g. on the balcony, patio or under the carport.

Simply hang the Bird Deterrent Falcon from the string that is attached to its back. If the dummy can sway in the wind, smaller birds will find it even more menacing.

Additional information

- **Dimensions:** approx. 41 x 59 x 8.5 cm (W x H x D)
- **Packaging dimensions:** approx. 14.5 x 59 x 10 cm (W x H x D)
- **Wing span:** 59 cm
- **Product description:** DE, FR
- **Product images, scenery images**
- **Packaging unit:** 12 units per package
