

Art.-No. 62302

Insect-Killer 50 m² with UV lamp

The insect lamp for rooms up to a size of 50 m²

The ultraviolet light emitting from the UVA tubes helps to attract flying insects. Mosquitoes and gnats are then killed quickly and painlessly by the integrated high voltage coil. The dead insects fall into the collection tray on the base of the device. The collection tray can easily be removed, emptied and cleaned. Hang the unit from the metal ring or set it in a secure place. Plug the power cord into the power outlet, the device is now ready for use.

Attention! For indoor use only! Outdoor use violates the Federal Species Protection Act!

Additional information

- **Dimensions:** 12 x 23.8 x 12 cm (W x H x D)
- **Packaging dimensions:** 13.5 x 25.5 x 13.6 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 6 units per package

Specifications

- **Covered area:** approx. 50 m²
- **High voltage:** 800 – 1000 V
- **UV light**
- **Current consumption:** 4 W
- **Voltage:** 220 V – 240 V/50 – 60 Hz
- **Cleaning brush included**
