

Art.-No. 62306

Flying Insect-Killer 20 m² Isokat Midi

For problems with mosquitoes, flies and fleas

The Gardigo Flying Insect-Killer 20 m² with UV light and on/off switch helps to keep rooms up to 20 m² free of insects. Most mosquitoes, flies, gnats, etc. are attracted by the special UV light and killed by the high voltage mesh quickly, painlessly and hygienically. They fall into the collecting vessel at the bottom of the device which can easily be emptied and cleaned. Hang the insect killer in the desired location and plug it in. Insects are attracted and killed by the high voltage grid. The switch at the front of the device allows you to easily turn it on or off at any time.

Attention: For indoor use only! Outdoor use violates the Federal Species Protection Act!

Additional information

- **Dimensions:** 15 x 23 x 10 cm (W x H x D)
- **Packaging dimensions:** 15.5 x 23.1 x 11 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, GR, RO
- **Product video, product images, scenery images**
- **Packaging unit:** 6 units per package/
10 units per package
