

Art.-No. 62312

Insect Killer 50 m² with LED

With integrated wall hanger

We like to open windows on warm summer evenings to regulate the room temperature. That is the way in which flying insects get into our rooms. Mosquitoes are particularly annoying and cause us sleepless night.

The Gardigo Insect Killer helps to keep rooms free of insects. The light of the LED UV lamp attracts them and they are killed quickly and painlessly by the high voltage grid. The collecting tray at the bottom of the device is easy to remove and clean. We recommend putting the lamp into operation 1–1.5 hours before using the room. Insects will find their way to the light faster without

any distraction. When you need to use the room, place the lamp outside in the hallway to lure insects away from you.

Attention:

For indoor use only! Outdoor use violates the Federal Species Protection Act!

Additional information

- **Dimensions:** 10.4 x 25.5 x 10.4 cm (W x H x D)
- **Packaging dimensions:** 11 x 27.5 x 11 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging units:** 12 units per package

Specifications

- **Range:** 50 m²
- **Voltage:** 220 – 240 V AC/50 Hz
- **High Voltage:** 900 V
- **LED UV lamp**
