Mouse-Ant-Repellent Dual

Dual speaker system for a wide range

Mice, rats, ants or silver fish are pests which you do not want in your house, storage rooms or attics. In order to keep pests away in an environmentally friendly way, the Gardigo Mouse-Ant Repellent Dual emits ultrasound ranging between 30.000 and 70.000 Hz. The twin speaker system of the Dual Mouse-Ant Repellent increases the covered area immensely. These high frequencies are registered by the animals, making them feel uncomfortable. Eventually they will look for a quieter place, which will appear more pleasant to them. The emitted ultrasonic signal is inaudible to humans and absolutely harmless. Take care of your environment – traps and poison in and around the house are not safe for humans and pets.

Additional information

- **Dimensions:** 14.5 x 7 x 8.5 cm (W x H x D)
- **Packaging dimensions:** 17.5 x 9.5 x 8.3 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT, CZ
- **Product video, product images, scenery images**
- **Packaging unit:** 48 units per package

Specifications

- **Covered area:** approx. 250 m²
- **Frequency:** approx. 30 – 70 kHz
- **Sound pressure:** ≥ 100 dB
- **Current:** 200 mA
- **Power rating:** 1W
- **Voltage:** 5V DC
- **Operating display (LED)**
