Rodent Repellent Duo

A constant vermin defence for the basement, garage or attic

Mice, rats, ants or silver fish are pests which you do not want in your house, storage rooms or attics. In order to keep pests away in an environmentally friendly way the Gardigo Rodent Repellent Duo emits a varying ultrasonic sound ranging between 25.000 and 65.000Hz. The dual speakers system will also emit a high pressure wave. The pressure waves can be activated individually. The animals nearby will register the change of pressure and the varying high frequencies at first unconsciously but will then begin to feel very uncomfortable. Areas outside the device's range will appear more pleasant to them.

The animals do not feel dislodged and the emitted frequency is inaudible to humans and absolutely harmless. Take care of your environment – traps and poison in and around the house are not safe for humans and pets.

Additional information

- **Dimensions:** 12 x 6.5 x 12 cm (W x H x D)
- **Packaging dimensions:** 18.5 x 12.5 x 8 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
- **Product images, scenery images**
- **Packaging unit:** 36 units per package

Specifications

- **Covered area:** approx. 550 m²
- **Frequency:** 25 - 65 kHz
- **Sound pressure**
- **Current:** 300 mA
- **Voltage:** 9 V DC
- **Operating display (LED)**
- **Fourfold function switch:** test, ultrasonic frequency, shock waves, ultrasonic frequency + shock waves
