Mouse Spring Trap, Set of 10

For cases of serious infestation

Are you having massive problems with mice? Our Snap Trap Set of 10 will help you getting even a large mouse population under control, e.g. in barns, basements or storage areas.

Setting up the traps is really simple: First fill the bait trough with a bait. Spreads such as peanut butter, liver sausage or chocolate and hazelnut spread are tried and tested.

Now place the traps in a mice infested area. As the rodents prefer to run along the skirting, the best places are usually by a wall. Place the traps with the bait facing the wall to catch rodents coming from either direction. Press down the tensioning bar until it clicks into place.

To release a captured rodent without touching it, simply press down the tensioning bar again. As the traps are made from sturdy plastic, they are easy to clean for repeated use.

Caution! Fill the trap with a bait first and only then place it on the ground and tension it by pressing down the tensioning bar with two fingers!

Additional information

- **Dimensions:** 9.6 x 5.7 x 4.5 cm (W x H x D)
- **Packaging dimensions:** 14 x 24.5 x 7 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 36 units per package
