Mouse-Plank-Trap

A live trap to be used with buckets

1. Hang the mousetrap on the edge of a bucket and position the "plank". Please do not fill the bucket with water. The trap is a live trap.
2. Place the bucket in a mouse infested area and attach a wooden board as a climbing aid to the edge of the bucket.
3. Lay the bait on the end of the plastic plank. Cheese, bacon, chocolate-hazelnut spread, peanut butter and liver sausage have proven to be quite successful. As soon as a mouse tries to get to the bait, the plank drops down, the animal falls into the bucket and is trapped.
4. Inspect the bucket several times daily for trapped mice. Release the animals at least 20 km away from human habitation.

Gardigo Mouse-Plank-Trap was evaluated in the magazine "Heimwerker Praxis" 1/2020 as "good" = 1.4.

Conclusion: „The Gardigo Mouse-Plank-Trap is the right thing for anyone who wants to catch mice, but spare them their lives – quite a catch for 15 Euro. (Dipl.Ing. Olaf Thelen).“ (Translated, Dipl.-Ing. Olaf Thelen)

Additional information

- **Dimensions:** 8.2 x 16.8 x 18 cm (W x H x D)
- **Packaging dimensions:** 9 x 21.5 x 5 cm (W x H x D)
- **Instructions included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 28 units per package
