Humane Rat Live Trap DIY

For large and small rats

No one likes to have rats in the house – but killing rodents is out of the question for many. For this reason the Gardigo Humane Rat Live Trap DIY was developed.

The Humane Rat Live Trap DIY has a particularly sensitive trigger mechanism, so that even small rats can trigger the trap. To reduce the stress a caught animal may suffer, this trap is a lot larger than ordinary live rat traps.

As the trap is made from plastic, it is easy to clean for repeated use. This is important: Should the animal suffer from stress because it is trapped, other rodents will be able to tell from the scent of its excretions and will avoid the trap.

The bait trough can easily be unscrewed from the bottom of the trap to fill it. We recommend using chocolate and hazelnut spread, liver sausage or peanut butter. Put some fruit into the trap to supply the caught animal with water.

Additional information

- **Dimensions:** 11 x 14 x 24 cm (W x H x D)
- **Packaging dimensions:** 7.4 x 11.8 x 25.6 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 24 units per package

The Humane Rat Live Trap DIY comes as a kit and is easy to assemble thanks to the illustrated instructions.

Important: Please check the trap regularly, approximately every two hours, to avoid stress for caught animals.
