Corner Mouse Trap

The multi catch trap

The Gardigo Corner Mouse Trap is made of galvanized metal. To place a bait inside the trap, its lid can simply be flipped open. Place the trap in a corner of the room. This is a great spot for a mouse trap, as the rodents usually use pathways along the walls, where they feel safer than in the open. As the trap has two openings, mice coming from either direction can be caught. The greatest thing about this trap is that it allows you to catch multiple mice. The mechanism of the entrance holes makes it possible. Mice will open the doors with their own weight. As soon as they enter the trap, the entrance holes will close again and the trap is ready to catch another mouse. To easily check for caught mice, a window is integrated into the traps lid. This allows you to see if you had a successful catch without having to open the trap.

Important! Check the trap regularly (at least every 2 hours) in order not to panic the animals unnecessarily.

Additional information

- **Dimensions:** 18.5 x 18.5 x 4.5 cm (W x H x D)
- **Packaging dimensions:** 18.8 x 18.8 x 5.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 16 units per package
