Rat Trap

Pre-baited, no-touch release

Rats introduce problems of hygiene and cleanliness when they manage to find their way into our houses, pantries, kitchens and work spaces. As inhabitants of the sewers they are covered in bacteria and pathogens which they spread wherever they go, making pest control important. The Gardigo Rat Trap can help you getting rid of your rat problem. It is equipped with a long lasting bait and ready to use right away!

In addition or as an alternative to the included bait, other foods such as cheese, bacon, hazelnut spread or peanut butter can be used to lure hungry rats into the trap. By simply pressing on the lid the trap can be tensioned and opened. Touching the animal is not required to release a rat from the snap trap. The synthetic material from which it is made is easy to clean for repeated use.

Gardigo Rat Trap was evaluated in the magazine "Heimwerker Praxis" 1/2019 as "good" = 1.5.

Conclusion: "The specially designed traps with built-in bait are ideal for mouse and rat control. They kill rodents quickly and can be used to transport the caught animals. Thus, brushing against the animal is avoided." (Translated, Dipl.-Ing. Olaf Thelen)

Additional information

- **Dimensions:** 9.3 x 10 x 19.5 cm (W x H x D)
- **Packaging dimensions:** 12.9 x 29 x 10 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, NL
- **Product images, scenery images**
- **Packaging units:** 40 pieces per package
