

Art. No. 62420

Mobile Sticky Insect Trap

Compact glue trap with LED light

The glue strip inside this product allows you to catch insects in a clean and hygienic way. They are attracted to the trap by the ultra violet light of its LED, which turns on automatically by night.

The trap is powered by two customary AA batteries or rechargeable batteries (not included). The integrated fold out hanger allows to hang the trap in the ceiling area, where insects often fly. Alternatively it can be placed on a flat surface.

The Mobile LED Insect Trap is small enough to take it with you to any place where you could be experiencing problems with flies and mosquitoes. Perfect for travelling or camping. The glue strip is easily replaced when full. Two strips are included in the delivery.

The function of attracting insect is only given to insects that react to light.

Additional information

- **Dimensions:** 8.1 x 12 x 8.1 cm (W x H x D)
- **Packaging dimensions:** 8.5 x 12.7 x 8.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
