Flight-Insect Trap Duo 60 m²

Do you have mosquitoes all over the house?

The Gardigo Flight-Insect Trap Duo 60 m² is a device for getting rid of mosquitoes where other repellents fail. The special light of the UVA tubes attracts many types of unwanted insects. There is an additional system for attracting with two integrated fans which suck in all mosquitoes nearby. Once they are sucked in, they get eliminated quickly and cleanly by the high voltage grid. The product is suitable for rooms up to 60 m².

Attention! For the protection of our environment and for the safety of endangered protected species, UV lamps with high-voltage grids may only be used indoors.
