Insect Trap with Smart Vacuum

Fan sucks insects into collection container

Are mosquitoes keeping you awake at night? We all try to avoid their itching bites. Once you have the pesky blood suckers in your bedroom, you spend lots of time looking for the source of the unbearable buzzing. Flies and fruit flies are unwelcome guests in kitchens. Not only are they annoying; Their presence may lead to problems of hygiene. You may stop worrying about these insects now, as the Gardigo Insect Trap with Smart Vacuum helps you catching flying insects of many kinds. The device attracts them using ultraviolet light. A powerful fan sucks flies and gnats into the collection tray. The unique funnel design of the trap increases the capture rate. The base of the device is easy to remove, allowing the contents to be emptied into the trash.

Attention: For indoor use only! Outdoor use violates the Federal Species Protection Act.
