Humane Mouse Live Cage Trap

Made in Germany

Made in Germany

The last couple of mild winters were ideal for mice. The rodents were able to reproduce rapidly and cause problems around the house. But how can you control this situation without harming the animals?

Simply use the Gardigo Mouse Live Trap. Place a piece of bait behind the actuator hook (chocolate and hazelnut spread or peanut butter should work well) and tension the trap. Once the rodent touches the hook on its way to the bait, the trap's door shuts and the mouse is caught.

This mouse trap is made in a sheltered workshop in Germany. This gives persons with disabilities the chance to participate in work life and get adequate support.

Please check the trap in regular intervals and release caught mice in a distance of at least 2 km.

Additional information

- **Dimensions:** approx. 15 x 5,8 x 7,4 cm (W x H x D)
- **Manuals included:**
DE, GB, FR, ES, IT, CZ, NL
- **Product video, product images, scenery images**
