Solar Insect Trap

All in one mosquito and wasp trap

The Gardigo Solar Insect Trap can be used during the day against wasps and at night against mosquitoes.

Wasps and other flying insects are annoying when they start buzzing around the cakes or the barbecue meat on the terrace

or balcony, but they are also a threat. A wasp sting is painful and can be life-threatening to people with allergies. Mosquito bites on the other hand are just annoying and itchy. In order to enjoy an insect free time we offer you the Gardigo Solar Insect Trap.

Application:

The insects are attracted by the smell of the bait liquid. Use vinegar and sugar water and add 2 to 3 drops of detergent. The sweet scent lures the wasps into the trap. The special design of the trap doesn't give the wasps a chance of escape. Bees will not be attracted due to the vinegar in the bait.

At dusk the blue LED is automatically turned on causing the liquid to glow blue. This will attract many kinds of nocturnal insects, which then get trapped in the liquid.

Additional information

- **Dimensions:** 9.3 x 11.7 x 9.3 cm (W x H x D)
- **Packaging dimensions:** 10 x 12.5 x 10 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT, CZ / DE, GB, CZ, SK, PL, RO, HR, BG
- **Product images, scenery images**
- **Packaging unit:** 48 units per package
