Wasp Trap, Set of 2

Protection from wasps

Made in Germany

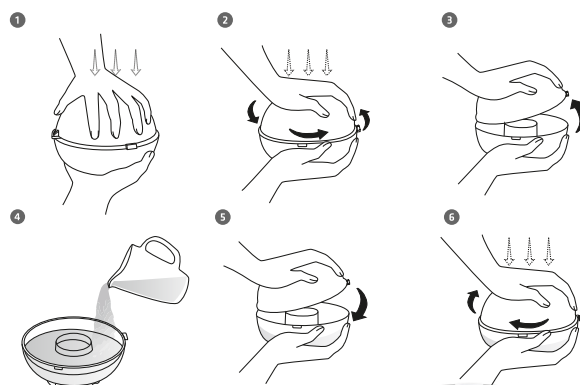

Wasps and other insects are, especially during summertime, a nuisance when we are sitting on the patio or balcony. Even the children playing in the garden are not safe from wasps. Hitting the insects with your hand or the newspaper will only make them more aggressive. A wasp sting can easily occur and the insects will most certainly be back. Wasp stings are painful and for someone allergic or for children they can even be dangerous.

Get rid of the wasps by using our wasp trap set of two! The devices help you getting rid of wasps safely on your balcony, your patio or in your garden.

Also available as a set with attractant (Art.-No. 66654).

Instructions:

Mix water with a little vinegar and sugar and add a few drops of washing-up liquid. The wasps will be attracted by the sweet smell and caught in the trap. Bees on the other hand will be repelled by the smell of vinegar. The special design of the trap makes it extremely difficult for the wasps to escape again. Disposing of the insects safely is easy.

Additional information

- **Dimensions:** 13 x 10.5 x 13 cm (W x H x D)
- **Packaging dimensions:** 13 x 10 x 13 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
- **Product video, product images, scenery images**
- **Packaging unit:** 48 units per package
