Wasp Trap, Set of 2

Monitoring for protection against wasps

- Two entry holes
- To hang or set

In summer wasps on the terrace or balcony can be extremely annoying. They are attracted by your cake or freshly grilled meat and can very easily get caught in a glass or bottle.

The wasps sting can be extremely painful and for an allergic even life-threatening.

To make your own life easier when sitting outside enjoying your food and drink it is advisable to have wasp trap nearby. This offer is a set of two.

Instructions: Fill the trap with a mixture of water, sugar and vinegar. Sugar will attract the wasps into the trap. The special design does not let them get out again. By adding vinegar you keep away bees from also getting trapped.
