Slug Trap, Set of 2

The natural slug defence for your garden

Enjoy your garden without nibbled lettuce leaves and damaged flowers: with our Slug Trap, you can effectively control slugs – entirely without chemicals!

How it works: Simply fill the container with beer* – the irresistible scent reliably attracts slugs. The practical lid with a central hole allows slugs to enter while reducing direct contamination from leaves and other debris. The lid can be easily removed for cleaning.

Your advantages at a glance:

- Natural slug control without toxic substances
- Easy to use: set up, fill, catch slugs
- Protection against coarse contamination thanks to the lid

The trap can be easily rinsed with water for repeated use. Ideal for vegetable patches, flower beds, and borders – perfect for anyone who values natural garden care.

Tip: For best results, place the traps around the bed rather than in the middle. The attraction of beer is very strong. When positioned correctly, you avoid unintentionally luring slugs towards your plants.

* beer not included

Also available as a 12-piece set (Art.-No. 6664612).
