Natural Moth-Stops, Set of 12

Made from natural wood

Are you having problems with clothing moths? This hungry pest feeds on wool and furs. It's hard to get rid of moths, because who wants to spray poison into his wardrobe?

Gardigo has a natural solution for the problem. Our Natural Moth-Stop is made from cedar wood, more specifically from eastern red cedar, which is actually a species of juniper. The natural habitat of this tree is in North America. Its wood is used to make

clothes chests and closets amongst other things, as the moth repelling properties of its fresh scent have been known for ages.

To take advantage of these properties, it is not necessary to spend lots of money on new furniture. Simply put Gardigo Natural Moth-Stops into the wardrobe or hang them on cloths hangers. We recommend using the product as a preventive measure to protect your precious clothing. The scent can be freshened up over and over again by sanding the surface of the wood.

Contents: 12 pieces

Additional information

- **Dimensions:** 4 x 4 x 1 cm (W x H x D)
- **Packaging dimensions:** 14 x 19,3 x 2.3 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
- **Product images, scenery images**
- **Packaging unit:** 48 units per package
