Window Fly Trap, Set of 4

Monitoring system with decorative flower print

Fruitflies and common houseflies are pesky and can be a real hygiene problem in kitchens, lounges, bedrooms, pantries etc. The insects can often be found sitting on windows. In these places you can monitor the infestation easily by using our Window Fly Traps.

Use: Peel off the red plastic strip from the back of the trap to and stick it to the window by using the now exposed, narrow adhesive surface. Only then remove the protective foil from large adhesive surface.

In case the foil is hard to remove, put the trap in the refrigerator for a couple of minutes.

Attention! If medical advice is needed, have packaging or label available as reference. Keep out of reach of children.

Additional information

- **Dimensions:** 16 x 5 cm (W x H)
- **Packaging dimensions:** 6 x 20.5 x 1.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 12 units per package
