Spider Catcher

Without chemicals, without death

Spiders in the house are usually harmless. If you are afraid of spiders or have a phobia, even friendly words like "that spider is more afraid of you than you are of it" are no help against the fear. The Spider Catcher from Gardigo makes the catching and disposing of spiders extremely easy! It is a simple method which is efficient, totally harmless to the spider and does not let the spider get anywhere near you.

When the grip of the handle is pressed, the bristles at the end of the Spider Catcher will open up. Then place the bristles over the spider, and release the handle. The bristles will close and hold the spider tightly without squashing or killing it. You can then take the device outside, open the bristles and release the unharmed spider into the nature.

Additional information

- **Dimensions:** 66.4 x 15.5 x 7.3 cm (W x H x D)
- **Packaging dimensions:** 7.5 x 70 x 7.5 cm (W x H x D)
- **Manuals included:** DE, GB
- **Product video, product images, scenery images**
- **Packaging unit:** 36 units per package
