Ant-Repellent

What to do against ants in the house?

Ants are really useful as “ecosystem engineers” in your garden, but you wouldn’t want to have them in your home. They keep finding their way into pantries and nest there. Their nests are usually hidden in walls and its these you need to fight against. Killing single ants only has a temporary effect. As long as there is food in the house they will keep creeping out of their hiding places. Killing them with poison is one way to deal with the problem, but it kills the useful insects and may be harmful to pets or children. The Gardigo Ant-Repellent on the other hand uses ultrasound, inaudible to humans, but a nuisance to ants. Your

house will become an unpleasant area for the insects and they will look for a quieter place. Make your house ant free again!

Also available as a set of 2 (Art.-No. 669882).

Additional information

- **Dimensions:** 6.5 x 6.5 x 6.8 cm (W x H x D)
- **Packaging dimensions:** 7.5 x 14.5 x 7 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 40 units per package

Also available for problems with:

Mosquitoes
Art.-No. 66985

Mice
Art.-No. 66986

Spiders
Art.-No. 66987

Silverfish
Art.-No. 66990

Specifications

- **Covered area:** approx. 25 m²
- **Frequency:** approx. 30 kHz
- **Current consumption:** 0.2 W
- **Current:** 0.9 mA
- **Voltage:** 220 – 240 V/50 – 60 Hz
- **Operating display (LED)**
- **Material:** ABS
