

Art.-No. 70027

Solar Mole Repellent

A mole and vole repeller for your garden

The Gardigo Solar Mole and Vole Repeller continuously emits signals in order to keep away moles and voles from your property. Just stick the Solar Mole Repellent into the ground. The slim design makes this very easy. The Solar Mole Repeller will send tones into the surrounding ground, which moles and voles find most irritating. The sounds occur every 45 seconds at a frequency of 400 Hz. To show moles that your garden is an unpleasant place before they even try to enter, the Gardigo Solar Mole Repellent can be used as a preventive measure, in order to give you peace and keep the garden free of molehills.

Gardigo Solar Mole Repellent was evaluated in the magazine "Heimwerker Praxis" 4/2017 as "good" = 1.5. In the price/performance relationship it was evaluated as "good".

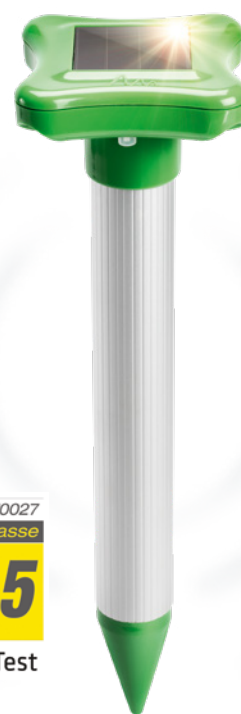

Additional information

- **Dimensions:** 7.5 x 27.5 x 7.5 cm (W x H x D)
- **Packaging dimensions:** 8.2 x 28 x 8.2 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT / DE, GB, CZ, SK, PL, RO, HR, BG
- **Product video, product images, scenery images**
- **Packaging unit:** 10 units per package

Conclusion: "The Solar Mole Repellent is animal friendly, eco friendly and requires no maintenance. It only takes a little bit of patience until the effect sets in."
