## Solar Ant Repellent

Small gadget, big benefit

The Solar Ant Repellent is designed to disturb ants entering and nesting in your garden. Just stick the Ant Repellent into the ground. The slim design and the aluminium rod make this easy to do. The repellent will then send out vibrations every 45 seconds at a frequency of 600 Hz. This noise is a disturbance to ants. They will prefer being in a quieter place. In order to avoid damage in your garden, we recommend using the device as a preventive measure. The Ant Repellent can also be used in large flowerpots or raised flower beds.

### Additional information

- **Dimensions:** 7 x 27,5 x 7 cm (W x H x D)
- **Packaging dimensions:** 8.2 x 28 x 8.2 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
- **Product images, scenery images**
- **Packaging unit:** 10 units per package

IP56

### Specifications

- **Covered area:** approx. 700 m<sup>2</sup>
- **Frequency:** every 45 seconds, 600 Hz
- **Solar panel:** 2 V/30 mA
- **Protection class:** IP56
- **Rechargeable battery:** 1.2V/80 mA Ni-MH button battery
- **Material:** Head: ABS, Pole: aluminium
- **With on/off switch**
