Vole Defence 'Four Seasons'

2 unit heads for solar and battery powered operation

Moles are active throughout the year. In summer, solar powered mole repellents are a popular means of controlling the problem, but they will not charge during the dark time of year. In addition, the low temperatures may damage the rechargeable battery. This is why different devices for summer and winter use are available.

To save on valuable resources, Gardigo now has a mole repellent for the entire year: two solutions in one device!

In summer the Vole Defence 4 seasons is powered by a solar panel. When the days get shorter, one can simply swap out the unit head.

The sound that the device emit underground quickly becomes annoying to the burrowing animals and they will search for a quieter place.

Additional information

- **Dimensions:** 8.4 x 34 x 8.4 cm (W x H x D)
- **Packaging dimensions:** 13.5 x 32 x 6.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
- **Product video, product images, scenery images**
- **Packaging unit:** 20 units per package

Gardigo Wühltrieb-Abwehr
„Vier Jahreszeiten“, Art.-Nr.: 70061
Oberklasse 1,4
Heimwerker
Praxis 6/23
Preis/Leistung: gut – sehr gut
