

Art.-No. 70600

Solar Bird Deterrent 360°

The preventive all-round protection

Birds belong to nature like sun to summer. Their singing contributes to our good mood in a way that makes us want to join them in song. Unfortunately they can do a lot of damage, too, when they nest in the wrong place or their appetite for a good meal is just too big. Our Solar Bird Deterrent 360° is designed to help you protect your possessions from birds in order to avoid costly damages. It is best to install the device early on, before they can nest under your car port, eaves or in your cherry tree. The emitted ultrasonic signal and light flashes are a disturbance to many kinds of birds. Areas outside the device's range will appear more pleasant to them. Field trials showed that ultrasound in the frequency range this device is using has a range of 150 m². Protect your car and house front from caustic bird droppings! Eat your ripe, sweet cherries yourself again! Fish in your pond will be glad to not end up as bird food.

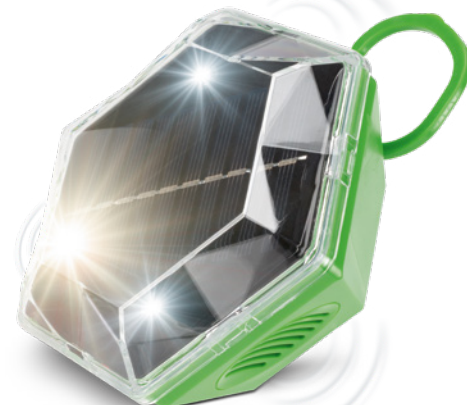

Additional information

- **Dimensions:** 12 x 11 x 5.5 cm (W x H x D)
- **Packaging dimensions:** 13 x 13 x 6 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
