Mosquito Bite Repellent

Mobile protection – for outdoors in nature

Mosquito bites itch, turn red, swell and the longer you scratch to ease the itch, the worse the symptoms get. Once they are there, it is too late. So the best idea is to keep the mosquitoes away from you.

The Mosquito Bite Repellent emits sounds at a frequency that irritates female mosquitoes in your immediate area (Mosquito males are not affected, but it is only the female mosquito that needs the blood for her young).

Using the key chain, the device can easily be carried around and the integrated LED can be useful in many situations as a small torchlight.

Additional information

- **Dimensions:** 2.5 x 8.5 x 2 cm (W x H x D)
- **Packaging dimensions:** 5 x 13.2 x 2.1 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 92 units per package

Specifications

- **Frequency:** approx. 7 kHz
- **LED**
- **Battery:** 3 x LR44 button cell (included)
- **With on/off switch**
- **With key hanger**
