Marten Repellent Professional

A repellent against martens for your car

The Gardigo Marten Repellent Professional is designed to keep martens out of your engine compartment and away from the rubber hoses and cables. If a marten has been in the car before, the engine compartment needs to be cleaned thoroughly as the marten has a very distinct sense of smell and will always find back to its den. Fortunately the marten not only has a fine sense of smell, but also an acute sense of hearing. This is where the repellent comes in. The Gardigo Marten Repellent Professional emits an ultrasonic signal at the frequency of 23 kHz, which is well outside the range of human hearing. Even people with very good hearing capabilities will not hear the sound. The device is

connected to the car battery and does not require an external power supply.

The Gardigo Marten Repellent Professional – Keep martens away from your car and the engine compartment and protect yourself from damage by using ultrasound!

Additional information

- **Dimensions:** 5.5 x 10 x 4 cm (W x H x D)
- **Packaging dimensions:** 8.1 x 14 x 4.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, NL
- **Product video, product images, scenery images**
- **Packaging unit:** 10 units per package

Specifications

- **Frequency:** 23 kHz +/- 10 %
- **Sound pressure:** up to 85 dB
- **Radiation angle:** approx. 140°
- **Connection cable:** approx. 30 cm
- **Fine wire fuse:** 200 mA
- **Current consumption:** approx. 0.1 W
- **Voltage:** 12 V DC
- **Power indicator (LED)**
