

Art.-No. 78480

Ultra Marten Repellent Mobile

Inaudible to human ears

The repellent emits an ultrasonic signal in order to keep martens away from vehicles, barns, houses and gardens. These high frequency sounds cannot be perceived by humans, but are most disturbing to the marten. This can protect your car from marten attacks on your cables, hoses and other rubber parts in the engine compartment. The integrated vibration sensor switches the device off as soon as it senses movement. A convenient feature for the use in the car, as the device is only active while the car is parked and battery power is conserved. The Ultra Marten Repel-

lent Mobile is ready to use right away. No power connection or assembly required. Place the device, turn it on, no more martens.

Additional information

- **Dimensions:** 11.5 x 6.8 x 3.6 cm (W x H x D)
- **Packaging dimensions:** 8.5 x 15 x 4.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product video, product images, scenery images**
- **Packaging unit:** 10 units per package

Integrated vibration sensor:

Turns the device on as soon as the car is parked

Quartz Controlled:

For a stable frequency and consistent intervals

Specifications

- **Covered area:** approx. 40 m² (in enclosed spaces)
- **Frequency:** 23 kHz +/- 10 %, approx. 80 dB
- **Interval:** 5 sec. on/45 sec. off
- **Battery:** 6x AAA á 1.5 V (Micro, not included)
- **Fastening material:** 4 cable ties
- **Power indicator (LED)**
- **With on/off switch**
