Insect Catcher with Magnifying Glass

Catch – observe – release

The Insect Catcher is easy to use and allows you to remove insects from the house hygienically, without using poison and without hurting them. Your children can catch the insects and watch them under the built-in magnifying glass. This will encourage their awareness of nature and their environment and take away their fear of insects. Simply pull back the hood cover, then gently slip the open hood over the insect with a steady hand and close the hood using the slider in the handle. If needed, the convenient telescope handle of the device can be used. Capture and release insects instead of killing them. Hygienic – non-toxic – environmentally friendly – animal friendly. This encourages the natural and environmental awareness of children and adults.

Note: Please do not torment animals. Only capture them for a short time and release them as quickly as possible.

Additional information

- **Dimensions:** 8 x 41 x 8 cm (W x H x D)
- **Packaging dimensions:** 9 x 43 x 9.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
- **Product images, scenery images**
- **Packaging unit:** 10 units per package
