Bird House Café

Decorative and useful

The Gardigo Birdhouse Café is not only a nesting box, but also a great eye catcher for your garden. As a home for the birds it is really useful. Its entrance hole has the ideal size for house sparrows and pied flycatchers. In the birdhouse they can nest and overwinter. With a little bit of luck a bird family will soon raise cute little baby birds inside. Especially for children it is exciting to watch the fledglings on their first flight.

Additional information

But the Birdhouse is not only an ornament for the garden: Its design with numerous little details makes it a great decorative item for lounges or children's rooms.

Use:

1. Hang the bird house in sunny spot, sheltered from wind and rain.
2. The front of the house should ideally be facing south.
3. Please leave the house hanging in winter. Birds are nesting and overwintering in it.

Material: Plywood
