Bat House

Shelter for bats

Do you see bats fluttering around the street lights in the evening? Do something good and offer them a shelter!

The Bat Nesting House is a natural accommodation for bats. Many bats in our climes like to nest in barns and attics. The ever improving insulation of houses and roofs makes it increasingly difficult for bats to find a suitable place to nest. If you do have bats in or near the house, you can help them find a suitable nesting site by hanging up this bat house. The bat house is made from natural, weather resistant wood and has bark on its

surface. The design is adapted to the needs of bats. The houses should be hung in locations that are similar to the natural hiding places of bats.

Bats feed from insects such as mosquitoes and flies and can therefore be very beneficial for humans.

Additional information

- **Dimensions:** 13 x 28 x 8 cm (W x H x D)
- **Packaging dimensions:** 14 x 29 x 9 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 10 units per package
